

Dr. Tetgure Healthcare Clinic

Nurturing Health Naturally

Our Services

□ Homeopathy & Immunity Boosting

- Homeopathy works on the principle that the body has the ability to heal itself when stimulated correctly. Using highly diluted natural substances derived from plants and minerals, homeopathy helps trigger the body's own healing responses. This form of treatment is especially beneficial for boosting immunity and managing chronic conditions without the side effects of conventional medicines.

□ Diabetes Management

- Diabetes is a chronic metabolic disorder caused by insufficient insulin production or poor utilization of insulin by the body. Insulin, the hormone responsible for regulating blood sugar levels, is vital for metabolic balance. At our clinic, we provide homeopathic support for diabetes, aiming to improve insulin function, reduce blood sugar fluctuations, and promote overall well-being through natural means.

□ Autism & ADHD Support

- We also offer homeopathic care for Autism Spectrum Disorder (ASD) and Attention Deficit Hyperactivity Disorder (ADHD). These neurodevelopmental conditions can affect communication, behavior, and learning abilities. Through customized homeopathic remedies, we aim to support children and families in managing symptoms such as repetitive behaviors, social challenges, and attention difficulties, while improving focus, calmness, and overall development.

Weight Loss Without Surgery

- Struggling with weight issues? Our clinic provides non-surgical weight loss solutions that are safe, sustainable, and tailored to your body's needs. With homeopathy and guided lifestyle changes, we help you shed excess weight without the risks of invasive procedures — naturally and effectively.
